FLORIDA POWER & LIGHT COMPANY

March 4, 1983

L-83-121

Office of Nuclear Reactor Regulation
Attention: Mr. Steven A. Varga, Chief
Operating Reactors Branch #1
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Varga:

Re: Turkey Point Units 3 & 4
Docket Nos. 50-250 & 50-251
Containment Purge Valve
Debris Screens

Your letter of February 10, 1983 contained the NRC staff's initial assessment of our September 17, 1982 submittal concerning the operability of our containment purge isolation valves. You stated that recent information concerning the operability of large-diameter Pratt butterfly valves (of the generic family R1A or NR1A) in the event of a DBA-LOCA raised concern. You also requested that we provide you with any change in our schedular commitments concerning the installation of debris screens. Florida Power & Light has reviewed its position concerning the installation of debris screens as you requested. In light of the concerns raised in your letter, we are withdrawing our commitment (given in a letter dated November 17, 1982) to install debris screens in Turkey Point Units 3 and 4. The debris screen commitment will be reconsidered following resolution of the valve operability concerns.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
