L-83-480

Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Eisenhut:

Re: Turkey Point Units 3 & 4
St. Lucie Units 1 & 2
Docket Nos. 50-250, 50-251
50-335, 50-389
Request for Time Extension on Response to
Section 2.2.2 of NRC Generic Letter 83-28

Reference: Letter, D. G. Eisenhut to All Licensees of Operating
Reactors, et al., "Required Actions Based on Generic
Implications of Salem ATWS Events (Generic Letter 83-28)",
July 8, 1983, Section 2.2.2

This letter requests an extension of time for responding to Section 2.2.2 of the referenced letter for the nuclear plants owned by Florida Power & Light. We are a member of Nuclear Utility Task Action Committee (NUTAC) formed on September 1, 1983, for the specific purpose of defining an appropriate vendor interface program.

In view of our continuing participation in the SEE-IN and NPRDS programs, we believe that a time extension will have no immediate impact on public health and safety.

While participating in the NUTAC, we will concurrently evaluate, in more detail, our plants' existing capabilities for interfacing with our vendors. After completion of the NUTAC's efforts, we will submit our program description to the NRC by February 29, 1984.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
