Dear Dr. Xu:

It has come to our attention that Amendment No. 14 to NRC License No. 13-32212-01 issued on November 6, 2017, contained an error.

Specifically, Item 6.W. on your license should list rehenium-186, instead of rhenium-188. This error has been corrected in the enclosed Corrected Copy of License Amendment No. 14. We apologize for any inconvenience this may have caused you.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with Title 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
