Figure 1 consists of nine maps of the tropical Pacific region, labeled (a) through (i), arranged in a 3x3 grid. Each map displays the spatial distribution of the 1997-1998 El Niño event, specifically the Niño-3.4 index. The maps show the progression of the event from the central Pacific towards the eastern and western edges of the basin. Shaded areas represent regions where the Niño-3.4 index was greater than 0.5. The maps illustrate how the event's influence spread across the basin over time, with (a) showing the initial event in the central Pacific and (i) showing the event spreading to the northern Pacific.

Office of Nuclear Reactor Regulation
Attention: Mr. S. A. Varga, Chief
Operating Reactors Branch #1
Division of Operating Reactors
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Varga:

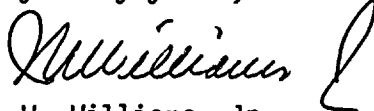

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250, 50-251
Inservice Inspection -
Second 10-year Summary Program

Florida Power & Light has reviewed the NRC letter dated August 17, 1984 which requested additional information on the Second 10-year Inservice Inspection Summary Plan for Turkey Point Units 3 and 4.

The information requested will be submitted by November 19, 1984.

Should you or your staff have any questions on this information, please contact us.

Very truly yours,

J. W. Williams, Jr.
