Office of Nuclear Reactor Regulation
Attention: Mr. Steven A. Varga, Branch Chief
Operating Reactors Branch #1
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Varga

Re: Turkey Point Units 3 & 4
Docket Nos. 50-250 & 50-251
Spent Fuel Storage Facility Expansion

As discussed we are providing an update to our responses made in L-84-211, dated August 22, 1984, pertaining to Health Physics aspects of the currently authorized Spent Fuel Storage Facility Expansion. The attachment is provided for your information.

Should any questions arise, please contact us.

Very truly yours,

J. W. Williams, Jr.
Group Vice President
Nuclear Energy

ATTACHMENT

Florida Power & Light Co. is planning to ship the (replaced) spent fuel storage racks to Westinghouse Advanced Reactor Division, Waltz Mill Site, as an interim step, prior to final disposal. The racks will remain intact when shipped to the Waltz Mill facility and they will be received and possessed within the current limits of their license, SNM-770 (Materials License). Westinghouse will then dismantle and cut the racks for volume reduction, repackage, and ship to the Richland, Washington burial facility as allowed within their conditions of license.

It is our opinion that this activity remains in accordance with the NRC Safety Evaluation Report approved in support of Amendment No. 111 to Facility Operating License No. DPR-31 and Amendment No. 105 to Facility Operating License No. DPR-41.
