1. The first part of the report discusses the general situation of the project and the progress made during the last period. It mentions the completion of the preliminary studies and the start of the main work. The second part describes the results of the experiments and the analysis of the data. It shows that the proposed method is effective and that the results are in good agreement with the theoretical predictions. The third part discusses the conclusions and the prospects for further work. It is concluded that the project has been successful and that the proposed method is a promising approach for the study of the problem. The fourth part contains the references and the appendix.

2. The second part of the report discusses the results of the experiments and the analysis of the data. It shows that the proposed method is effective and that the results are in good agreement with the theoretical predictions.
