Office of Nuclear Reactor Regulation  
Attention: Mr. Steven A. Varga, Chief  
Operating Reactors Branch #1  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

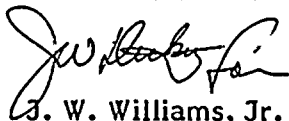

Dear Mr. Varga:

Re: Turkey Point Units 3 and 4  
Docket Nos. 50-250 and 50-251  
Proposed License Amendment  
Containment Integrity

By letter dated January 28, 1985, and supplemented on March 2, 1985, FPL submitted proposed revisions to the Turkey Point Units 3 and 4 Technical Specifications related to containment systems. In the January 28, 1985 submittal, FPL proposed certain changes to clarify the requirements for operability of the containment air lock during the performance of surveillance and/or other testing of the air lock. To further clarify the intent of that specification (T.S. 3.3.4), FPL has added "containment air lock" prior to "surveillance and/or testing requirements". A revised page 3.3-2 reflecting this change is attached.

If you have any questions, please call us.

Very truly yours,

J. W. Williams, Jr.  
Group Vice President  
Nuclear Energy

cc: Harold F. Reis, Esquire  
Dr. J. Nelson Grace, NRC Region II
