### III. ADDITIONAL ITEMS

Please make any suggestions you may have as to how a utility sponsored availability/reliability project might be credited for plant safety enhancement. Provide additional constructive comments as appropriate.

FPL sponsored a meeting of electric utility companies at The Royce Hotel in West Palm Beach, Florida October 17-19, 1984. This meeting was held to exchange information related to the development of Integrated Living Schedules, discuss philosophical and legal considerations, and to determine the status of other utility company efforts in this area. Twenty-seven utility companies were represented, with a total of more than 100 attendees. Similar meetings will be hosted by other utilities in the future.
