Office of Nuclear Reactor Regulation
Att: Mr. D. G. McDonald
PWR Project Directorate #2
Division of PWR Licensing - A
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. McDonald:

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
Anticipated Transients Without Scram (ATWS)

Florida Power & Light Company has received the NRC's Safety Evaluation of the generic design for the ATWS Mitigation System Actuation Circuitry (AMSAC) transmitted by your letter dated September 24, 1986. As requested in that letter, our Turkey Point schedule follows.

A Turkey Point plant specific ATWS design document is being prepared for submittal to the NRC by July 15, 1987. Following development of the plant specific design and NRC approval of that design, a schedule for implementation can be developed.

If you have any questions regarding the above information please contact us.

Very truly yours,

C. O. Woody
Group Vice President
Nuclear Energy
