Office of Nuclear Reactor Regulation
Attention: Mr. Hugh L. Thompson, Jr, Director
Division of PWR Licensing - A
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Thompson:

Re: Turkey Point Units 3 and 4
Docket Nos 50-250 and 50-251
Proposed License Amendment
Integrated Schedule

Pursuant to 10 CFR 50.90 we hereby request an amendment to Facility Operating Licenses DPR 31 and DPR 41 for Turkey Point Units 3 & 4, respectively. The amendment adds a license condition that requires the implementation of the Company's Plan for the Integrated Scheduling of Plant Modifications for Turkey Point Units 3 & 4 (the Plan). In accordance with 10 CFR 50.30, three signed originals and forty copies of this request are being submitted.

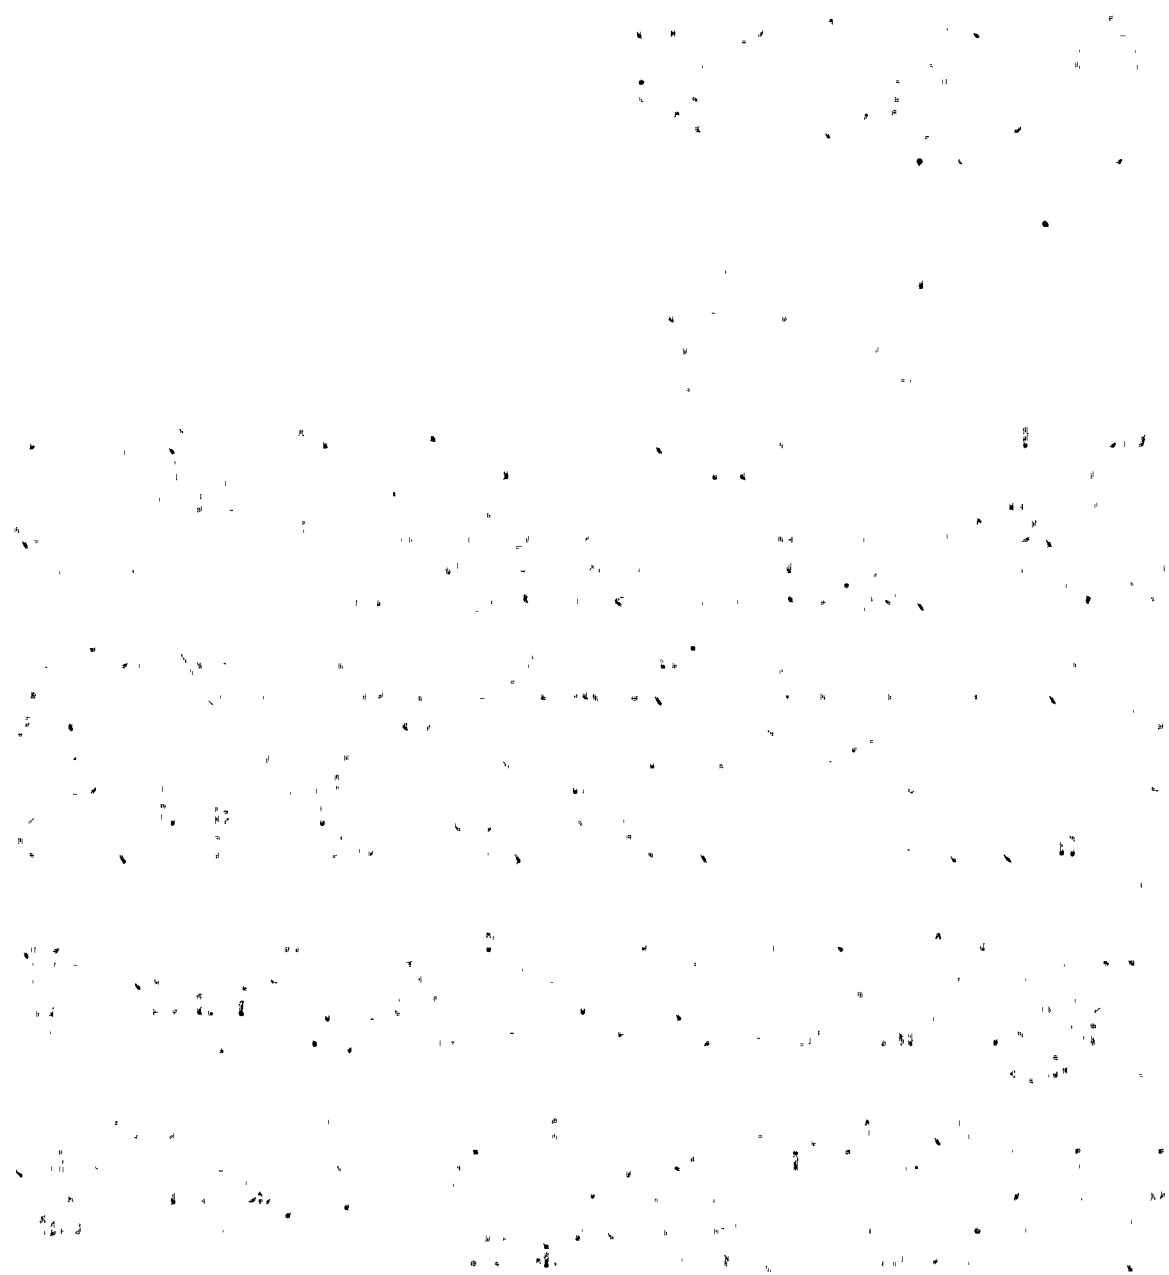

The Plan describes the responsibilities of the NRC and the Company; provides a summary description of the Company's Integrated Schedule Program; describes the Integrated Schedules (I/Ss); describes the mechanisms for changing the I/Ss; describes the periodic reporting requirements; and describes the mechanism for changing the Plan. In submitting the Plan, we understand that we are not waiving our rights to request hearings, or to challenge, pursuant to established NRC regulations, any order which may be issued by the Commission which may affect the I/S.

We believe that our current I/S schedules both NRC originated and Company originated tasks in a manner which ensures the continued safe, prudent, reliable and economic operation of Turkey Point, and that it properly reflects relative priorities and available resources in accordance with the philosophy of Integrated Scheduling.

We are presently in the process of scheduling our 1987 and subsequent activities, including those activities to be accomplished during our Unit 3 outage next spring, and it is our desire that the license amendments be approved at the earliest possible time. It is also our desire that, upon approval of our license amendments, any outstanding confirmatory orders be rescinded.

We would propose meeting with the appropriate NRC staff at your early convenience and we will be contacting the NRC Licensing Project Manager for Turkey Point to arrange a mutually agreeable time.

The proposed amendment has been reviewed and approved by the Turkey Point Plant Nuclear Safety Committee and the Florida Power & Light Company Nuclear Review Board.

In accordance with 10 CFR 50.9(b)(1), a copy of the proposed amendment is being forwarded to the State Designee for the State of Florida.

In accordance with 10 CFR 170.12(c), FPL Check No. 3290 for \$150.00 is attached.

Very truly yours,

C. O. Woody
Group Vice President
