1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a presentation of the results of the study. It includes tables and graphs showing the data and the findings of the research.

4. The fourth part of the report is a discussion of the results and their implications. It discusses the strengths and limitations of the study and the potential for future research.

5. The fifth part of the report is a conclusion and a summary of the findings. It provides a clear and concise statement of the results and the conclusions drawn from the study.

6. The sixth part of the report is a list of references. It includes a list of all the sources used in the study, including books, articles, and other documents.

7. The seventh part of the report is a list of appendices. It includes a list of all the additional materials that are included in the report, such as raw data, questionnaires, and other documents.

8. The eighth part of the report is a list of figures. It includes a list of all the figures that are included in the report, such as graphs, tables, and other visual aids.

9. The ninth part of the report is a list of tables. It includes a list of all the tables that are included in the report, such as data tables, summary tables, and other tables.

10. The tenth part of the report is a list of footnotes. It includes a list of all the footnotes that are included in the report, such as footnotes to the text, footnotes to the tables, and other footnotes.

SELECT SYSTEM ASSESSMENT
DECEMBER 1986 PROGRESS

Reconstitution of Design Basis

Juno Plant Engineering task force comments on the draft versions of the reconstituted design bases were received and incorporated where appropriate. Reissuance of the reconstituted design bases for formal JPE review occurred December 14th.

Preparation and issuance of the Chemical and Volume Control System (Emergency Boration) draft reconstituted design basis continues on schedule for a 2/2/87 issue. Note the change from 2/1/87 which is a Sunday.

Walkdowns

One hundred of three hundred and six small bore piping and tubing walkdowns are complete.

Eighty-nine of one hundred and eighty breaker list walkdowns are complete.

Ninety-nine of one hundred and fifty-one P&ID walkdowns are complete.

SEG Comprehensive Review

The SEG Phase II report was issued for review and comment on December 1, 1986. Comments were received and incorporated as appropriate. The final report was issued on December 22, 1986.

Each open item identified will be pursued to resolution as appropriate.

Other Significant Progress

- Completed modifications to AFW steam trap drains.
- Completed AFW control panel wiring modifications.
- Completed modifications to AFW trip and throttle valve position indication.
- Revised procedure on Emergency Filters.
