U. S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, D. C. 20555

Gentlemen:

Re: Turkey Point Units 3 and 4  
Docket Nos. 50-250 and 50-251  
Emergency Diesel Generators

On March 4, 1987 (FPL Letter No. L-87-102) Florida Power & Light Company submitted a request to extend the administrative seven (7) day allowed out-of-service time for a diesel generator in Modes 1, 2, 3 and 4 on a one time basis in order to perform planned maintenance.

Because of the current two unit outage, the work can be performed within the current technical specification limiting condition for operation, and therefore the extension is not required. Accordingly, we withdraw our request.

If there are any questions, please call us.

Very truly yours,

  
C. O. Woody  
Group Vice President  
Nuclear Energy
