MEMORANDUM FOR: Frank J. Congel
Director
Division of Radiation Protection
and Emergency Preparedness
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission

FROM: *[Signature]* Richard W. Krimm
Assistant Associate Director
Office of Natural and Technological
Hazards Programs

SUBJECT: Exercise Report for the January 14-15, 1987, Exercise
of the Offsite Radiological Emergency Preparedness (REP)
Plans for the Turkey Point Nuclear Power Plant

Attached is a copy of the Exercise Report for the January 14-15, 1987, partial participation joint exercise of the offsite REP plans for the Turkey Point Nuclear Power Plant. Dade and Monroe Counties, both located in the 10-mile plume emergency planning zone (EPZ), fully participated in the exercise. The State of Florida partially participated in the exercise.

The exercise report, dated March 9, 1987, was prepared by the Region IV staff of the Federal Emergency Management Agency (FEMA). The report does not identify any deficiencies resulting from this exercise. There were identified, however, two areas requiring corrective actions and eleven areas recommended for improvement. FEMA Region IV staff will furnish a copy of this exercise report to the State of Florida and will assure completion by the State of the necessary corrective actions.

Based on the results of this exercise, and the corrective actions completed since the January 1986 exercise, there is reasonable assurance that appropriate protective measures can be implemented by offsite jurisdictions around the Turkey Point Nuclear Power Plant to protect the health and safety of the public in the event of a radiological emergency. Therefore, the 44 CFR 350 FEMA approval granted on February 15, 1984, will remain in effect.

If you have any questions, please contact Mr. Robert S. Wilkerson, Chief, Technological Hazards Division, at 646-2860.
