(ADAMS Accession No. ML17335A098).

Dear Sir or Madam:

In Reference 1, Entergy Operations, Inc. (Entergy) submitted an application for renewal of the Operating License for River Bend Station (RBS) for an additional 20 years beyond the current expiration date. In an email dated November 29, 2017, (Reference 2) the NRC staff made a Request for Additional Information (RAI), needed to complete the License Renewal application review.

This letter provides a follow-up to a telephone conversation between representatives of Entergy and the Nuclear Regulatory Commission (NRC) Staff on December 7, 2017, regarding a due date extension for the Set 3 RAIs noted in Reference 2. Currently, the RAI responses are due on December 29, 2017. Due to the potential for a lack of resources during the latter part of December 2017, Entergy will provide a response to the Reference 2 RAIs on or before January 10, 2018.

If you require additional information, please contact Mr. Tim Schenk at (225) 381-4177 or [tschenk@entergy.com](mailto:tschenk@entergy.com).

Sincerely,

WFM/RMC/alc
