U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D. C. 20555

Gentlemen:

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
Annual Non-Radiological
Environmental Monitoring Report 1988

On April 25, 1988 the NRC issued Amendments 128 and 122 to Facility Operating Licenses DPR-31 and DPR-41 for Turkey Point Units 3 and 4, respectively. These amendments deleted the remaining Sections 1.0 and 5.0 of the Turkey Point Environmental Technical Specifications (ETS) and replaced them with an Environmental Protection Plan (EPP). The implementation date for the EPP was June 25, 1988.

Section 5.4.1 of the ETS for Turkey Point Units 3 and 4 required the submittal of a Non-Radiological Environmental Monitoring Report annually. The report is due to the NRC by March 31 of the year following the reporting year.

This Annual Report is being submitted to fulfill the reporting requirements of Section 5.4.1 of the ETS for the period January 1, 1988 through June 25, 1988. Since the EPP does not require the submittal of an Annual Report this will be the last Annual Report submitted to satisfy ETS requirements.

If you have any questions regarding the attached information, please contact us.

Very truly yours,

W. F. Conway
Senior Vice President - Nuclear

1. The first part of the report is a general description of the project. It includes a statement of the purpose of the project, a description of the methods used, and a summary of the results. The second part of the report is a detailed description of the results. It includes a discussion of the data, a comparison of the results with previous work, and a conclusion. The third part of the report is a bibliography of the references used in the project.

ENVIRONMENTAL MONITORING REPORT 1988

Listed below is the information required to be reported under the applicable provisions of Section 5.4.1 of the Environmental Technical Specifications for the period January 1, 1988 through June 25, 1988:

1. Section 5.4.1.1 - Records of Monitoring Requirements Surveys and Samples

Section 5.4.1.2 - Analysis of Environmental Data

Section 5.4.1.3 - Records of Changes in Survey Procedures

There were no activities at the plant site in 1988 requiring reporting under these Sections. However, various plant site activities are subject to review by company environmental procedures. All review documentation is contained in Company Environmental Review Group (CERG) records.

2. Section 5.4.1.4 - List of Any Special Environmental Studies Related to the Licensed Facilities Not Required by the Environmental Technical Specifications.

Crocodile monitoring continued at the Turkey Point site during 1988. The monitoring program has shown the presence and dynamic nature of all size classes of animals on the site. Three nests were documented in 1988 with a total of 49 hatchlings being marked. Six previously marked juvenile and subadult animals were captured and released on site. Growth rates of all recaptured animals were positive.

3. Section 5.4.1.5 - Records of Any Violations of the Environmental Technical Specifications.

No violations of the Appendix B Environmental Technical Specifications occurred during 1988.

4. Section 5.4.1.6 - Records of Changes As Described in Section 5.4.2.

No changes pursuant to Section 5.4.2 occurred in 1988.
