Licensing Points of Contact

Florida Power & Light Company's (FPL) Nuclear Energy Licensing Department is primarily responsible for day-to-day contact with the NRC's Office of Nuclear Reactor Regulation and Region II Office. To enhance FPL's ability to interact with the NRC and improve the effectiveness of licensing and regulatory support for the Turkey Point and St. Lucie Plants, FPL requests that primary NRC/FPL contact be made in accordance with the attachment. These individuals are responsible, and available at all times, for coordination of NRC contact with other FPL departments and both FPL nuclear sites.

FPL realizes that the NRC may, on occasion, have need to make direct contact with other FPL personnel. However, to make most effective use of FPL's organization, it is recommended that the NRC adhere, as much as possible, to the attached protocol.

The attachment to this letter contains personal information, the disclosure of which would clearly constitute unwarranted invasion of personal privacy. Pursuant to 10 CFR 2.790(a)(6), we request that this attachment be withheld from public disclosure.

Should there be any questions, please contact us.

Very truly yours,

W. F. Conway
Senior Vice President - Nuclear
