Mr. Stuart Ebnetter  
Regional Administrator  
U. S. Nuclear Regulatory Commission  
Region II  
101 Marietta Street, N. W.  
Atlanta, GA 30323

Dear Mr. Ebnetter:

For several years, we have maintained a letter of support from your organization. In fact, the emergency plans for our nuclear facilities call for your organization's support in the event of an emergency at one of our nuclear plants. We review our plans annually and have noticed that your letter is a couple of years old and may no longer be current.

To assure that our understanding of your capabilities and resources is current, please provide a new letter of support to my attention. I have attached a copy of your previous letter for your reference. Your new letter should contain the following information:

- 1) Administrative point of contact
- 2) Description of the resources and support which can be provided
- 3) Process/procedure to be used to obtain this support and method for information exchange
- 4) Descriptions of the authorities, responsibilities, and limits on your actions
- 5) Any other information pertinent to your organization's emergency response capabilities

Please remember that this letter will be included in an appendix to our emergency plan and as such will be placed in the Nuclear Regulatory Commission Public Document Room. Any personal or proprietary information must be so identified and should be appended to the letter. This will allow us to maintain our files current without inadvertently disclosing any personal or confidential information.
