L-91-152

U. S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, D. C. 20555

Gentlemen:

Re: Turkey Point Units 3 and 4  
Docket Nos. 50-250 and 50-251  
Reactor Protection System Setpoints

The NRC requires that Proposed License Amendments (PLAs) be accompanied by a markup of the current revision of the affected pages of the license. By letter L-90-417 dated December 19, 1990, Florida Power and Light (FPL) submitted a request to amend the Turkey Point Technical Specifications (TS). The PLA was accompanied by a markup of the TS revision current at that time (through amendment 137/132), showing the proposed changes.

Subsequently, the NRC issued amendments 138/133 on December 28, 1990, 139/134 on April 12, 1991, 140/135 on April 23, 1991, 141/136 on April 30, 1991, and 142/137 on May 20, 1991. Keeping with the requirement to provide a markup of the current revision of the license, please find attached a markup of the affected pages of the current revision (through amendment 142/137) of FPL's Turkey Point TS and an explanation of the differences between the markup submitted December 19, 1990, and the attached markup. This markup is being submitted to reflect the latest approved TS.

Should there be any questions, please contact us.

Very truly yours,

*W H Bohlke by R E Shagin*

W. H. Bohlke  
Vice President  
Nuclear Engineering and Licensing
