Dear Sen. Graham:

The time has come to investigate conditions at Turkey Point nuclear plant. ① It has been cited as one of the most dangerous nuclear plants in the nation. Are you waiting for a serious accident?

② Do you think Florida should be chosen for the state to build more nuclear plants - I understand that the Bush administration have pin pointed Florida as a possible state. Considering Florida is the sunshine state - let's try to find alternate form of energy - not nuclear - Sincerely, Sally Stoller
