Re: Turkey Point Units 3 and 4  
Docket Nos. 50-250 and 50-251  
Proposed License Amendment - DNB Parameters

By letter L-91-86, dated April 3, 1991, Florida Power & Light (FPL) submitted proposed license amendments (PLA) to revise several Departure from Nucleate Boiling (DNB) parameters. FPL has reevaluated the need for the proposed change to the licenses and has decided to not pursue the PLAs at this time. This decision was based on the continued maintenance of the operating margin for the parameters of interest.

Should there be any questions, please contact us.

Very truly yours,
