Ms. Fisher,

This is in response to your amendment request letters dated August 2, 2017, and September 29, 2017, requesting to add the authorization to perform Yttrium-90 TheraSphere therapy at your facility. In order to complete your request we require the additional information.

1. Please confirm that Pamela Lyons is authorized to sign such requests on behalf of senior management.
2. Please submit your procedures for termination of treatment due to stasis.
3. Please confirm that you have appropriate instrumentation available to adequately survey for the presence of radioactive contaminants in the waste stream.

Once we receive the required information we will proceed with your request. Please let me know if you have any further questions or need additional clarification.

Please remember to have senior management review and sign the response.

Thanks.
