Gentlemen:

Re: Turkey Point Units 3 and 4  
Docket Nos. 50-250 and 50-251  
Information Gathering Visit in  
Support of the Fatigue Action Plan

NRC letter from L. Raghavan to J. H. Goldberg, dated February 14, 1994, informed Florida Power and Light Co. (FPL) of NRC's intentions to visit FPL on March 15 and 16, 1994, to gather information relating to Turkey Point Units 3 and 4 fatigue design of reactor coolant pressure boundary components. Based on our conversations with NRC Staff members, this letter confirms FPL's support of this information gathering visit and the change of the visit dates to March 16, and 17, 1994.

Should there be any questions, please contact us.

Very truly yours,
