Washington, D.C. 20555

Gentlemen:

Re: Turkey Point Units 3 and 4  
Docket Nos. 50-250 and 50-251  
Request for Commitment  
Generic Letter 93-04, Rod Control System Failure and  
Withdrawal of Rod Control Cluster Assemblies

By letter L-93-186, dated August 4, 1993, Florida Power and Light Company (FPL) responded to questions regarding Generic Letter 93-04, Rod Control System Failure and Withdrawal of Rod Control Cluster Assemblies. By letter dated November 15, 1993, the NRC requested additional information to support the review of FPL's response to Generic Letter 93-04. FPL responded to the request for additional information in our letter L-93-319, dated December 28, 1993. By letter dated December 7, 1994, you requested we commit to implement the current order timing modification and the new surveillance test recommended by the Westinghouse Owners' Group.

The recommended modification will be implemented during the next refueling for each unit. The next refueling for Unit 3 is presently scheduled to start in September, 1995. The next refueling for Unit 4 is presently scheduled to start in March, 1996. The new current order surveillance test will be written as an outcome of the modification, and implemented during the following refueling outages.

Should there be any questions, please contact us.

Very truly yours,

T. F. Plunkett  
Vice President  
Turkey Point Nuclear
