Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
Inservice Inspection
Third Ten Year Summary Program
Revised Relief Request No. 9

By letter L-93-220, dated September 9, 1993, Florida Power and Light Co. (FPL) submitted a summary of the Inservice Inspection (ISI) Program and relief requests for the third ten year interval at Turkey Point Units 3 and 4. The ISI Program details how FPL will implement Inservice Inspection requirements at Turkey Point during the third ten year interval. By letter L-94-118, dated May 31, 1994, FPL provided additional information regarding the ISI Program, as requested by NRC letter dated April 4, 1994.

As a result of questions raised during NRC's review of Relief Request No. 9, and as discussed during several telephone conversations with the NRC, attached is the revised Relief Request No. 9, Alternative Scheduling of Examinations.

Should there be any questions concerning this submittal, please contact us.

Very truly yours,

T. F. Plunkett
Vice President
Turkey Point Plant
