 RECIP. NAME RECIPIENT AFFILIATION
 VARGA, S.A. Operating Reactors Branch 1

SUBJECT: Submits addl info re ECCS valve position per 830104 ltr.
 Plant change/mod package providing single continuous
 position indication for valves will be prepared.
 Implementation schedule for changes will be provided.

Dear Mr. Varga:

Re: Turkey Point Units 3 & 4
Docket Nos. 50-250 & 50-251
Single Failure - ECCS Valves

Our letter (L-83-5) dated January 4, 1983 provided information in response to your letter dated November 5, 1982 concerning our proposal to address the potential single failure of certain ECCS valves. The purpose of this letter is to provide additional information concerning valve position.

We have requested our engineering department to prepare a plant change/modification package to provide for single continuous position indication for valves 862 A&B, 863 A&B, and 864 A&B, as requested in your safety evaluation. We will provide a schedule for implementation of these changes as soon as it becomes available.

Should you or your staff have any additional questions on this subject, please contact us.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
