SUBJECT: Request for Due Date Extension for License Renewal Application NRC Request  
for Additional Information From 30 Days to 45 Days  
River Bend Station, Unit 1  
Docket No. 50-458  
License No. NPF-47

References: 1) Entergy Letter: License Renewal Application (RBG-47735 dated May 25,  
2017)  
2) NRC emails: River Bend Station, Unit 1, Request for Additional Information,  
Sets 4 and 5 – RBS License Renewal Application – dated December 13,  
2017

Dear Sir or Madam:

In Reference 1, Entergy Operations, Inc (Entergy) submitted an application for renewal of the Operating License for River Bend Station (RBS) for an additional 20 years beyond the current expiration date. In emails dated December 13, 2017, (Reference 2) the NRC staff made a Request for Additional Information (RAI), needed to complete the License Renewal application review.

This letter provides a follow-up to a telephone conversation between representatives of Entergy and the Nuclear Regulatory Commission (NRC) Staff on December 13, 2017, regarding a due date extension for the Sets 4 and 5 RAIs noted in Reference 2. Currently, the RAI responses are due based on a 30-day response window. Due to the potential for a lack of resources during the latter part of December 2017, Entergy requests the RAI responses be due on a 45-day response window. This request also is applicable to any other RAI set received by River Bend Station prior to January 1, 2018.

If you require additional information, please contact Mr. Tim Schenk at (225)-381-4177 or [tschenk@entergy.com](mailto:tschenk@entergy.com).

In accordance with 10 CFR 50.91(b)(1), Entergy is notifying the State of Louisiana and the State of Texas by transmitting a copy of this letter and attachment to the designated State Official.

Sincerely,

WFM/RMC/alc
