Subject: KPS: CY2018 Master Inspection Plan

Dear Mr. Zipp,

In accordance with Inspection Manual Chapter (IMC) 2561, "Decommissioning Power Reactor Inspection Program," the NRC Region III staff developed a Master Inspection Plan (MIP) for the Kewaunee Power Station for calendar year 2018. The inspection plan is based on your current performance and your planned decommissioning activities for the site in January through December 2018. Below is a list of the periodic inspection procedures we expect to use during our inspections. The procedures used during each inspection will depend on the specific activities being conducted at the site. Additional discretionary inspection procedures may be used if decommissioning or ISFSI activities warrant. We will gladly discuss any questions you may have regarding this MIP. If you have questions, please contact me at (630) 829-9722. If you have questions related to security inspections, please contact the Plant Support Branch Chief at 630-829-9500.

Sincerely,

Rhex Edwards

Inspection Procedure (IP)	Start Date	End Date
IP 36801: Organization, Management, and Cost Control	10/01/2018	11/01/2018
IP 37801: Safety Reviews, Design Changes, and Modifications	10/01/2018	11/01/2018
IP 40801: Self Assessment, Audits, and CAP	10/01/2018	11/01/2018
IP 83750: Occupational Radiation Exposure	02/01/2018	03/01/2018
IP 83801: Inspection of Remedial and Final Surveys at Permanently Shutdown Reactors	10/01/2018	11/01/2018
IP 84750: Radioactive Waste Treatment, Effluent and Environmental Monitoring	02/01/2018	03/01/2018
IP 86750: Waste Management and Transportation	02/01/2018	03/01/2018
