Subject: Status Update for the Petitioner | PRM 50-112

Mr. Schaefer,

My name is Dennis Andrukat and I will be taking over this petition for rulemaking. I am writing to provide an update on your letter in which you submitted a petition for rulemaking to the U.S. Nuclear Regulatory Commission (NRC), dated July 20, 2015, and supplemented on August 31, 2015. In your letters, you requested that the NRC amend Part 50 of Title 10 of the *Code of Federal Regulations* (10 CFR), "Domestic licensing of production and utilization facilities," by defining and providing a set of criteria "for determining which structures, systems, components and functions are 'important to safety.'"

The NRC docketed your letters as petition for rulemaking PRM-50-112, and the NRC published a notice of receipt in the *Federal Register* on January 6, 2016 (81 FR 410).

The NRC is still evaluating the petition. Once the petition has been resolved, the NRC will publish a notice in the *Federal Register* explaining the NRC's finding. You will also receive a letter at that time notifying you of the action the NRC has taken.

Please contact me at Dennis.Andrukat@nrc.gov or [\(301\) 415-7000](tel:3014157000) if you have any questions.

Sincerely,
Dennis
