Morning Bill,

Apology for the delay, I was out of office last week but did get your vmail. We have a supplemental analysis from SGH that we believe will help reconcile the discussion on the CEVA North Wall Inspection. It was accepted by NextEra Engineering a few days ago.

What I'd propose is to have Christine upload to the Certrec portal and then have a short conference call with you to walk through the document early next week before the holiday?

Ken
