1. The first part of the document is a letter from the President of the United States to the Congress, dated January 1, 1861. It is a very important document, as it sets out the President's policy for the new year.

2. The second part of the document is a report from the Secretary of the Treasury, dated January 1, 1861. It contains a detailed account of the financial state of the country.

3. The third part of the document is a report from the Secretary of the Interior, dated January 1, 1861. It contains a detailed account of the state of the interior of the country.

4. The fourth part of the document is a report from the Secretary of the Navy, dated January 1, 1861. It contains a detailed account of the state of the Navy.

5. The fifth part of the document is a report from the Secretary of the War, dated January 1, 1861. It contains a detailed account of the state of the War.

6. The sixth part of the document is a report from the Secretary of the State, dated January 1, 1861. It contains a detailed account of the state of the State.

7. The seventh part of the document is a report from the Secretary of the War, dated January 1, 1861. It contains a detailed account of the state of the War.

Harold Denton  
Office of Nuclear Reactor Regulation  
Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Denton:

I am writing to insist that you do not grant CP&L's request for an exemption from a full-scale drill of the evacuation plan for the Shearon Harris Nuclear Power Plant.

This full-scale drill is required by law and was part of an agreement made between CP&L and the Chatham County Board of Commissioners, under which the Board agreed to rejoin the evacuation plan.

A full scale drill is needed because there were problems with the drill conducted in May of 1985, and because there have been changes made to the plan since that time.

Both Lee and Chatham Counties have instituted some changes, and only a full-scale drill will reveal whether those changes will resolve the many problems raised after the 1985 drill, and since that time.

A "scaled down" drill involving only a test of notification procedures, and without the participation of all state level participants in the plan, is simply not adequate to test the plan's effectiveness, nor to ensure that local residents will be adequately protected in the event of an accident.

I do not believe that CP&L should be allowed to be exempt from the law, especially since they have led our public officials to believe that a full-scale drill will be conducted this summer or fall.

Yours sincerely,

*Cynthia R. Crossen*
