Correct and I see the joke continues- you must realize the absurdity of suggesting a 2.206.

Happy New Year

Ms. Lampert,

I understand that you do not want your request to shutdown or downpower Pilgrim Nuclear Power Station due to Winter Storm Grayson to be processed under the 10 CFR 2.206 Petition Process.

The NRC will handle your request under the principal correspondence process. Region 1 will be responding to your request.

Sincerely,

John G. Lamb

Mr. Lamb:

We presume your suggestion that we might want to file a 2.206 was made tongue-in-cheek. Clearly, our request to close or power down the reactor was made in response to today's pending storm- a storm predicted to make a timely evacuation not possible.

As we all know, a 2.206 process takes time, often months. The storm would be a distant memory by the time the 2.206 process was underway.

We hope that our request now will be taken seriously by NRC. We have reasons for concern during severe storms. For example, lessons from past experience warn that the switchyard

may flash over as it gets coated with snow and ice. The waves will send salt spray into the yard as well.

Sincerely,

Mary Lampert

Subject: Pilgrim- Request close/power down pending blizzard
Importance: High

Ms. Lampert,

I understand that the Town of Duxbury Nuclear Advisory Committee and Pilgrim Watch requests that Pilgrim Nuclear Power Station close or reduce power due to Winter Storm Grayson.

Title 10 of the *Code of Federal Regulations*, Section 2.206 (10 CFR 2.206) permits any person to file a petition to request that the U.S. Nuclear Regulatory Commission (NRC) take enforcement-related action.

10 CFR 2.206 petition process is a public process in which the petition and all information in it will be made public.

If you do not wish to proceed in the 10 CFR 2.206 petition process, please let me know. Unless I hear otherwise, the NRC will follow Management Directive 8.11, "Review Process for 2.206 Petitions."

Sincerely,

John G. Lamb

Subject: [External_Sender] Pilgrim- Request close/power down pending blizzard

Hello:

The Town of Duxbury Nuclear Advisory Committee and Pilgrim Watch request that Pilgrim Station close, or at the least power way down, due to the predicted blizzard conditions from the National Weather Service. See below. We understand that the wind speed predicted is below the level protocol calls for a mandatory shut down. However, the National Weather Service says that, "Travel will be very dangerous.." Therefore a timely evacuation would not be possible. Sheltering inside is a limited option. *EPA shows that dose reduction is limited and in a short period*

the dose inside and outside become equivalent, Table 2.1. says that generally, sheltering-in-place can provide significant protection for about 2 hours in small residential structures. Larger masonry structures can provide protection for up to 5 hours. The host community and surrounding towns are largely residential with wooden houses.

We urge NRC to take a precautionary approach to better protect our citizens.

Thank you for your consideration.

Blizzard Warning in Massachusetts

Active for next 1 day · National Weather Service

Posted 1 hour ago

...BLIZZARD WARNING FROM 7 AM TO 7 PM EST THURSDAY...

* WHAT...Blizzard conditions expected. Travel will be very dangerous. Damage to trees and power lines is possible. Total snow accumulations of 8 to 11 inches, with localized amounts up to 15 inches, are expected.

* WHERE...East and Southeast Coastal Massachusetts as well as Southeast Coastal Rhode Island including Block Island.

* WHEN...From 7 AM to 7 PM Thursday.

* ADDITIONAL DETAILS...Winds gusting as high as 60 mph will cause whiteout conditions in blowing snow. Significant drifting of the snow is likely. Scattered to widespread power outages are anticipated.

PRECAUTIONARY/PREPAREDNESS ACTIONS...

A Blizzard Warning means severe winter weather conditions are expected or occurring. Falling and blowing snow with strong winds and poor visibilities are likely. This will lead to whiteout conditions, making travel extremely dangerous. Do not travel. If you must travel, have a winter survival kit with you. If you get stranded, stay with your vehicle. The latest road conditions for the state you are calling from can be obtained by calling 5 1 1.
