**Subject:** [External\_Sender] HES 3230 Request for an Export License Application

Joanne,

The correct reference number is HES3230 not HES3290 for application PXB216.00 (formally PXB210.00). I just noticed 14b. end-use was left blank, my apologies. I am currently processing applications as previously submitted by DJ Johnson. It appears he left 14.b blank on other applications, and only stated the end-use in the cover letter. I am attaching a revised cover letter.

**The end-use is as follows:**

The materials requested in the application will be used in Halliburton Energy Services Inc. (HESI) well logging operations. They are used in well logging tools, such as density porosity logging tools, neutron porosity logging tools, and elemental analysis logging tools, which are used to provide logging and perforating services to our clients in countries where we currently conduct business and others where we may have future business. Please note that only HESI and its subsidiaries will use the tools which use the RA sources.

Please let me know if additional information is needed.

Good Morning Bertha,  
Hope you and your family had a wonderful holiday.

Could you please respond to my question below regarding the end use for the Other Parties to Export? In order for me to get your export license issued in time, I need to have this question answered.

Thank You,

Joanne

**Subject:** RE: RE: Request for an Export License Application

Good Morning Bertha,  
I am in the process of processing your license application. The application has been assigned PXB216.00 (formally PXB210.00). Question, could you please provide me the endues for the Other Parties Export, reference number HES3290.

Thank You,

Joanne

**Subject:** Request for an Export License Application

Hello Bertha,

I have received your request for an export license. Your current license PXB210.00 has expired, therefore we will be issuing you a brand new license with a new license number. Also, as I was reviewing your public and non-public license applications, I noticed that you requested to redact the Countries of Ultimate Destinations on the application and on the export license.

After consulting with the Office of the General Counsel (OGC) and Stephen Baker, we have determined that the Countries of Ultimate Destinations must be released to the public.

Please provide us a revised NRC form 7, with the Countries of Ultimate Destinations, without the markings and you may sign the form 7 with a digital signature and email me the form 7.

To sign the form 7 using a digital signature in pdf, below are the steps:

1. Open and fill out the NRC form 7
2. Go to page 3
3. In the top right of the form 7, select Fill & Sign
4. Select Place Signature
5. Click, Drag New Signature Rectangle....
6. Drag the rectangle on page 2 of where you will need to sign the form 7
7. You will have several options to select for your signature, select one of those options
8. Once you have created your signature, the pdf will then prompt you to where it should be filed
9. Email me the form 7

If you have any questions, please let me know!
