Date: Monday, January 15, 2018 4:49:15 PM

Joe,

Please see below for the consolidated comments (mostly editorial) from team:

- Page 1, Section 1.0, 3rd paragraph:
 - “The NRC staff final SE is incorporated in the accepted-for-use version of the topical report, MRP-227-A, (**Rev. 4**).
 - Should be ‘**Ref. 4**’
- Page 1, Section 2.1, Header:
 - A/LAI 1 Applicability of Failure Mode **Effect** and Criticality Analysis and Functionality Analysis Assumptions
 - Should be ‘... Failure Modes and Effects and ...’
- Page 3, Section 2.1, 2nd paragraph:
 - The guidance in MRP Letter 2013-025 is incorporated as Appendix B. **Section 2.4** of MRP-227, Rev. 1 (Ref. 5) refers to this guidance for Westinghouse and CE plants.
 - Should be ‘...as Appendix B. ~~Section 2.4~~ of MRP-227, Rev. 1 (Ref. 5)...’
- Page 8, Section 3.0, 1st paragraph:
 - **There** reports were provided in support of generically resolving A/LAI 1 and A/LAI 7...
 - Should be ‘**The** reports were provided...’
- PWROG-14048, Rev. 2 was submitted to the NRC (Brian Benny) on December 21, 2017 for information. The NRC should be aware that the draft SER for ALAI 1 and 7 generic closure currently discusses Revisions 0 and 1 of PWROG-14048, but **not Revision 2**. This may have been intentional, but we wanted to point it out in case it was not.

Also, we do not see any proprietary information or any need for redactions.

Please let me know if you have any questions.

Thank you.

Kyle J. Amberge
