

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

CHAIRMAN

February 12, 2018

The Honorable Mick Mulvaney
Director, Office of Management and Budget
Washington, DC 20503

Dear Mr. Mulvaney:

The U.S. Nuclear Regulatory Commission (NRC) has developed the agency's Strategic Plan for Fiscal Years 2018–2022, and made it available on the NRC Web site at <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1614/v7/>.

The NRC's Strategic Plan describes the strategic goals and objectives that will be used to achieve the agency's mission. The NRC's mission is to license and regulate the Nation's civilian use of radioactive materials to provide reasonable assurance of adequate protection of public health and safety and to promote the common defense and security and to protect the environment. The agency's vision is to demonstrate the Principles of Good Regulation (independence, openness, efficiency, clarity, and reliability) in performing our mission. The two strategic goals for the NRC are to ensure both safety and security in the use of radioactive materials. These goals, along with their associated objectives and strategies, correlate to the agency's central regulatory functions.

If you have any questions, please contact me or have your staff contact Robert J. Lewis, NRC's Performance Improvement Officer, at (301) 415-1712.

Sincerely,

Kristine L. Svinicki

Identical letter sent to the following recipients, with the exception of the replacement of the point of contact with the Chairman and the Director of the Office of Congressional Affairs:
