Dear Mr. Oyadomari:

This is in reference to your letter dated November 7, 2017, notifying the NRC that you discontinued use of a room in the Molecular Imaging Suite on October 13, 2017, and decommissioned the area to allow for replacement of the existing PET/CT scanner in the room. This room may be released for unrestricted use to allow for this construction, followed by use of this room under your current license commitments. If changes are made to the final facility, please submit a revised facility diagram and indicate any changes made to the installed shielding.

Your cooperation is appreciated.

Sincerely,
