re: Shearon Harris Nuclear Facility, New Hill, NC

Dear Mr. Denton:

I would appreciate your reviewing the emergency evacuation plan for this facility and taking the following action:

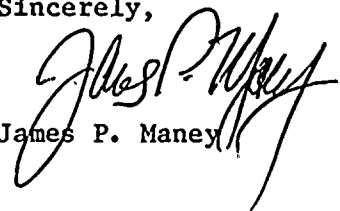

1. Expanding the evacuation planning radius to 25 miles.
2. Requiring that Carolina Power & Light submit a new evacuation plan, taking this radius into account.

The existing 10-mile radius around the plant is insufficient and unrealistic, considering the prevailing winds in the area as well as the rapid growth rate of the Wake-Durham-Orange County area.

The Raleigh News & Observer of June 1, 1986 devoted a front page story to the area's traffic problems and how it would affect economic growth. These same problems--which will obviously affect any evacuation plan--have not been adequately addressed by Carolina Power & Light in their existing plan.

Thank you for your consideration. I'll be looking forward to your response.

Sincerely,

  
James P. Maney
