Mission & Vision

Missions...

While the distinctive mission sets executed on Redstone Arsenal are complex and as varied as the organizational makeup, there are tremendous synergies realized across these functional boundaries. Generally, organizations on Redstone support five key operations:

1. Logistics services including materiel management, acquisition, contracting, and full life-cycle sustainment
2. Space operations and missile defense to support the nation's exploration and defense capabilities
3. Intelligence and homeland defense conducting threat analysis and explosives training and research
4. Research, development, test and evaluation to continue the innovative application of sciences and technologies into systems and equipment
5. Sustainment of Redstone Arsenal activities to ensure the installation and its workforce are properly cared for and resourced

Strategic Vision...

Redstone Arsenal is a Federal Center of Excellence focused on the Joint Warfighter, growing its strategic impacts, and ready to seize opportunities of the future.

...Smart professionals advancing technologies for tomorrow

...Leading edge capabilities providing decisive execution

...Strategic impacts through global reach
