---

Dear Ms Snyder,

I attach here a commentary on the Army response of December 15, 2017 to the NRC request for additional information regarding license SUC-1593 on sampling procedures at Pohakuloa Training Area in Hawaii (ML18009A456). I will also send a copy via US postal service. Thank you for sending the information to me. It clearly demonstrates the need for adjustments on what has become a rather woeful program.

Sincerely,

/s/

Michael Reimer, PhD  
Retired geologist
