 82 FR 52944

## Submitter Information

**Name:** Mark Mcgrath

## General Comment

To many things can go wrong, earthquake's, tsunami, even wild fire could have a devastating impact on this waste and poison major populations. The freeway passes right by this site as well. It's just the stupidest thing I've heard in my 58 years on the planet. Please reconsider your position,, all our lives here in California depend on it. SMH
