Long Range Planning

WELCOME

The Tennessee Department of Transportation has created a new long-term vision for transportation in Tennessee. The 25-Year Long-Range Transportation Policy Plan provides the foundation for prioritizing transportation investments across the State. This new plan will aid in accomplishing TDOT's mission to serve the public by providing the best multimodal transportation system in the nation.

WHAT IS THE PLAN?

TDOT has a long history of planning for multimodal transportation needs within the State. TDOT's 25-Year Long-Range Transportation Policy Plan is an important document for the Department and its many stakeholders, as the Plan allows TDOT to make key long-term funding and policy decisions about transportation investments throughout Tennessee, today and in the future. A major outcome of this two-year+ comprehensive effort is a mid-term, 10-Year Strategic Investment Program. The intent of the 10-Year Strategic Investment Program is to capture the insights gained during the development of the 25-Year Long-Range Transportation Policy Plan to concurrently develop a project program investment plan that is fiscally constrained and can be implemented over a 10-year horizon.

WHAT'S NEW?

The final 25-Year Long Range Transportation Policy Plan is now available to the public. Please feel free to download the documents listed below.
