## General Comment

From what I've learned about the planned storage of nuclear waste at San Onofre, it seems to be complete madness. The approved canisters aren't adequate for the job; the site is too close to the ocean. There are hundreds of reasons to oppose this decision but I can only implore you to re-examine the facts and shut this plan now before it's too late. (Docket ID NRC 2017-0211)
