LTR-NRC-18-4

January 24, 2018

Subject: Request to Reactivate Review for WCAP-16747, Appendices C and D, "POLCA-T: System Analysis Code with Three-Dimensional Core Model"

References: 1. Westinghouse Letter LTR-NRC-17-11, "Request for Change in Review Status for WCAP-16747, Appendices C and D, 'POLCA-T: System Analysis Code with Three-Dimensional Core Model,' " February 8, 2017 (ML17044A006)

WCAP-16747, Appendices C and D, "POLCA-T: System Analysis Code with Three-Dimensional Core Model" was originally under review by both the NRR and NRO branches of the NRC. By Reference 1, Westinghouse had requested that the NRC place their review of this report on hold pending a request by Westinghouse to reactivate the review.

Westinghouse is now in position to support an effective and efficient review of the report with the NRC. Westinghouse is therefore requesting that the NRC reactivate the NRR review of WCAP-16747, Appendices C and D, for application to operating BWR plants (BWR/2-6). Reactivation of the NRO review for application to the ABWR is not being requested at this time.

Correspondence with respect to this letter should be addressed to James A. Gresham, Manager, Regulatory Compliance, Westinghouse Electric Company, 1000 Westinghouse Drive, Building 2 Suite 259, Cranberry Township, Pennsylvania 16066.

A handwritten signature in black ink, appearing to read 'J. Gresham', is positioned above the printed name and title.

James A. Gresham, Manager
Regulatory Compliance
