Subject: [External_Sender] Change in implementation period for Columbia LAR to adopt TSTF-523

Follow Up Flag: Follow up
Flag Status: Flagged

John,
In Energy Northwest's license amendment request to adopt TSTF-523, "Generic Letter 2008-01, Managing Gas Accumulation," approval was requested within one year of the date of submittal with the amendment being implemented within 60 days thereafter. Energy Northwest desires to modify the implementation period from 60 days to 90 days in light of the expected NRC approval of the amendment prior to the one year timeframe. This timeframe will ensure the amendment can be implemented as planned. Thanks, Lisa

Lisa L. Williams
Energy Northwest
