14638 Lynewick Terrace
Silver Spring, MD 20906

IN RESPONSE REFER
TO FOIA-84-485

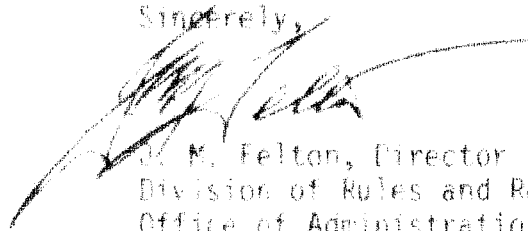

Dear Ms. Anderson:

This is in response to your letter of June 5, 1984, in which you requested, pursuant to the Freedom of Information Act, three categories of information regarding the NUMEC Niagara Facility which is located near Lewiston, New York.

The NRC has no documents subject to your request. However, we have been advised by a member of the staff that the Atomic Energy Commission (AEC) owned or operated a facility near Niagara, New York, for the production of boron compounds. Sometime in 1964, the AEC awarded a contract to NUMEC, Apollo, Pennsylvania, to manage this facility for them. This contract was terminated approximately seven or eight years later. The property still belonged to the AEC when the contract was terminated. If any records exist today, they would probably be held by the Department of Energy.

This completes NRC action on your request.

Sincerely,

J. M. Felton, Director
Division of Rules and Records
Office of Administration
