ATTN: Document Control Desk  
Deputy Director, Division of Decommissioning, Uranium Recovery and Waste Programs  
Office of Nuclear Material Safety and Safeguards  
Mailstop T8 F5  
US Nuclear Regulatory Commission  
Washington, DC 20555-0001

Dear Deputy Director:

Regarding US Nuclear Regulatory Commission License Number SUC-1593 (docket number 040-9083), we reference the following:

- Our June 1, 2017 letter, which was a request to amend the license by replacing three annexes to the Environmental Radiation Monitoring Plan.
- Your November 29, 2017, letter, subject: Request for Information Regarding the 10 CFR 2.206 Petition for the Pohakuloa Training Area.
- Our December 15, 2017 letter that responded to your November 29, 2017 letter.

We now ask that you add to our June 1, 2017 request by incorporating our December 15, 2017 letter into the license (item 11) by reference. The license would then explicitly include the following statement from the enclosure to the December 15 letter:

The collection of the sediment sample will consist of a discrete sample at each sample location. If necessary, multiple aliquots (no more than 10) will be collected from a 1-meter radius of the sample location in order to collect the required volume from the stream bed.

The statement clarifies our sampling method, which had been an expressed concern in the 10 CFR 2.206 petition. We prefer incorporation by reference to changing each of the first 18 annexes in our Environmental Radiation Monitoring Plan.

Thank you for your consideration. If you have any questions concerning this letter, please contact me by telephone at (210) 466-0368 or by email at [robert.n.cherry.civ@mail.mil](mailto:robert.n.cherry.civ@mail.mil).

Sincerely,

A handwritten signature in black ink, reading "Robert N. Cherry".

Robert N. Cherry  
License Radiation Safety Officer
