Mr. Neely,

Thanks for providing the amendment request related to the gauges transferred from OK Construction. My apologies for the late response, we had a lot of administrative issues in December and your request was not processed as promptly as it should have been.

I have completed my review of your request, and need only a description or diagram of your proposed storage facility in Frametown, WV. The information provided for the Amma, WV location is sufficient at this time, but there was not any information about the Frametown location.

I do need the response in a signed letter, but you may provide a pdf/scanned version of that letter by email, or you may fax a copy of that signed letter to 610-337-5269. As usual, a hard copy of the letter may also be sent through regular mail. However, if you choose either to email a pdf or to fax the letter, please do not mail a hard copy as well.

Thanks for your cooperation in this matter. If you have any questions about this request, please contact me by telephone or email as shown below.
