

**Summary of Changes to One Form that Implements
the Wolf Creek Generating Station (WCGS)
Radiological Emergency Response Plan (RERP)**

1. Form EPF 06-018-15, "Emergency Planning Quarterly Communications Checklist," Rev. 14

This revision of form EPF 06-018-15 added four line items on page 11 of 16 for satellite telephones that are stored in the Technical Support Center. These satellite telephones have been added to form EPF 06-018-15 to ensure that periodic testing is performed to ensure that the satellite telephones are available for emergency communications.

Adding the satellite telephones to form EPF 06-018-15 provides enhanced guidance for maintaining emergency response communication capabilities and supports compliance with 10 CFR 50.47(b)(6). Therefore, the changes to procedure EPF 06-018-15 do not decrease the effectiveness of the WCGS RERP.
