The purpose of this letter is to request a change to Items 2.A, 2.B.2 and 2.C.9 of License No. NPF-14. These License Conditions should read as follows:

- 2.A This license applies to the Susquehanna Steam Electric Station, Unit 1, a boiling water nuclear reactor and associated equipment (the facility), owned by the licensee. The facility is located in Luzerne County, Pennsylvania, and is described in the licensee's Final Safety Analysis Report as supplemented and amended through Amendment 53, and the licensee's Environmental Report as supplemented and amended through Amendment 53.

- 2.C.(9) Initial Test Program (Section 14, SER, SSER #1)

PP&L shall conduct the post-fuel-loading initial test program (set forth in Section 14 of the licensee's Final Safety Analysis Report, as amended through Amendment 53) without making any major modifications of this program unless modifications have been identified and have received prior NRC approval. Major modifications are defined as:
