General Comment

Please do not bury nuclear waste in front of one of the largest military bases in the country.... duh not to mention one of the best surf waves and beaches in the world that Provide many jobs in Orange County and the world. san clemente would not thrive with out these wonderful surf spots it is part of our identity as a town and people. why take the chance of possible death and destruction of or oceans and our people... you cannot get money if taxpayers are dead that means no pension or paycheck for you my friend...you work for us so please do your job and protect us it's ridiculous that we have to ask you to protect the people! This is a terriost wet dream why would anyone ever agree to such a stupid idea everyone involved should be ashamed of there greedy selfish decision to destroy this beautiful planet with seafood that could be destroyed for ever For people around the whole planet by one bad Decision over greed, ignorance, stupidity.

Please protect the people and the planet... I have said since I was 10years old why would anyone create something so dangerous and impossible to dispose of safely... or at all.... how is a child knows the right thing to do but an adult does not!
