SUBJECT: NRC INSPECTION REPORT 030-35252/2017-002 AND NOTICE OF VIOLATION

Dear Mr. Tebo:

This letter refers to the unannounced inspection conducted on December 13 through December 15, 2017, at your facilities in Indianapolis, Hammond, and Crown Point, Indiana, and temporary job sites in Edinburgh and Portage, Indiana. The inspection was an examination of activities conducted under your license as they relate to public health and safety, to confirm compliance with the U.S. Nuclear Regulatory Commission's (NRC) rules, regulations, and with the conditions of your license. Within these areas, the inspection consisted of a selected examination of procedures and representative records, observations of activities, and interviews with personnel. A final telephonic exit briefing was conducted with you on January 12, 2018.

Based on the results of this inspection, the NRC has determined that one Severity Level IV violation of NRC requirements occurred. The violation was evaluated in accordance with the NRC Enforcement Policy, which can be found at the NRC's Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>. The violation involved NRC security requirements, and is cited and described in the non-public Notice of Violation (Notice). Although Team Industrial Services, Inc. identified this violation in audits of its program, the violation was not fully corrected in a timely manner and was ongoing through the date of the inspection, and therefore this violation is being cited.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. The guidance in NRC Information Notice 96-28, "Suggested Guidance Relating to Development and Implementation of Corrective Action," may be helpful in preparing your response. You can find the Information Notice on the NRC website at: <http://pbadupws.nrc.gov/docs/ML0612/ML061240509.pdf>. Information regarding the reason for the violation, the corrective actions taken and planned to correct the violation and prevent recurrence, and the date when full compliance will be (was) achieved should be addressed. The NRC review of your response to the Notice will also determine whether further enforcement action is necessary to ensure compliance with regulatory requirements.

**The Enclosure contains  
Security-Related Information.  
When separated from the  
Enclosure, this letter is  
DECONTROLLED**
